Don't take our word for it:

- *“Just an outstanding company to work with in every way.*
- *“Mariner did in 3 months what normally would have taken a year!”*
- *“Excellent resources knowledgeable in new technologies that give you a jump start.”*
- *“Excellent relationships with the account & management team at Mariner have made our work with them very easy.”*
- *“Accessibility, availability, familiarity, their eagerness to learn about our company, their ability to do so, and their focus and experience in the BI space make Mariner one of our most valuable partners.”*

About Mariner For more than a decade, Mariner has helped clients in the utility, healthcare, education and other industries organize, use and share data to improve productivity, collaboration and decision making. We specialize in helping clients leverage their data through business intelligence, data warehousing, business scorecards and performance management dashboards. Equipped with our solutions, organizations achieve financial and operational goals and improvements in organizational alignment – from senior managers to front line workers.
